Section 1: Registrar's Responsibilities

<i>Area</i>	<i>Responsibilities</i>
Acute Call Responsibility	<ul style="list-style-type: none"> While on call the acute Paediatric Medical Registrar phone and Paediatric Resus pager are held. The Medical Registrar on acute call is available to advise on children in CED. The decision to admit a child is made by the Medical Registrar on acute call. On hand over of admissions from the emergency department, full and appropriate clinical notes and the ongoing management are the responsibilities of the medical registrar on call. If a child is referred to the Medical registrar on acute call from CED and the Registrar feels that admission is not appropriate they will review the child in CED and suggest an alternative plan with the CED staff. Review of medical admissions to PICU. The acute call Medical Registrar will take GP calls for advice and/or admission. They will notify ED if there is concern regarding the severity of the condition of the child. Attend emergency calls alerted to by the Paediatric Resus pager.
Clinical Responsibility	<p>There are two paediatric respiratory registrars whose combined clinical responsibilities includes the assessment and management of respiratory inpatients, daystay patients, clinical consults and respiratory outpatients. The two registrars will work co-operatively to ensure clinical responsibilities are met in a safe and efficient manner. To assist this they are assigned different roles (Reg 1 and Reg 2) according to the schedule below, dividing up responsibilities. To facilitate learning and service demands individual registrars will be switched between the two roles during the course of the run. It is expected they will support one another in the conduct of duties depending on individual workloads.</p>

<i>Area</i>	<i>Responsibilities</i>
	<p>Duties and responsibilities will be carried out as part of a multi-disciplinary team. Registrars will supervise and support more junior medical staff and in turn be supervised and supported by senior medical staff. The registrar will support if the SHO needs to be absent to attend to immunology duties.</p> <p>Specific responsibilities / duties (depending on assigned roles):</p> <ul style="list-style-type: none"> • Carry and respond to the respiratory mobile phone. • Carry out comprehensive tertiary respiratory patient assessments including appropriate history taking, examination, formulation, investigation plans and management plans. • Regular, comprehensive and legible documentation including date, time and signature. Clinical notes for inpatients should be entered at least daily with clear clinical impressions and management plans. A succinct problem list should be maintained in the front of the notes. Growth charts must be updated at least weekly. • Liaison with supervising senior medical officers as appropriate. Inform the responsible SMO when a patient is admitted electively for a bronchoscopy or for initiation of CPAP/NIV. • Implement investigation and management plans. Ensure investigations are followed up and acted on. Ensure medication charts meet appropriate standards. • Perform required procedures as necessary and as within their competent scope of practice. • Communicate with patients and their families in an appropriate and effective manner to facilitate their understanding, aid appropriate ongoing management and address their concerns. • Liaise with other staff members, departments and health professionals in the management of patients. • Weekend plans are to be developed prior to the weekend to assist on call staff. • Assist with the weekly 'handover' sheet, an aid to the Monday handover, inpatient care and planned activities. • Complete discharge summaries and other documentation for all inpatient and day stay patients as per respiratory service and DHB policies. • Ensure follow up and community care arrangements are in place. • Prior to outpatient clinics, review the notes of those being newly referred or followed up and discuss with the supervising senior medical offer. Arrange any concurrent investigations (e.g. lung function) ahead of time as per prevailing practice. Liaise with the supervising senior medical officer about clinic patients during or after the clinic itself as appropriate / planned. Some respiratory clinics have specific pre/post clinic meetings to facilitate these activities.
