RESPONSIBLE TO:	Service Manager and Clinical Director through their supervising Consultant(s) and the Clinical Head.
FUNCTIONAL RELATIONSHIPS:	Health care consumers Hospital and community based health care workers
PRIMARY OBJECTIVE:	To facilitate the management of patients under the care of Department of Cardiology
RUN RECOGNITION:	This run is recognised by the RACP as a training position for specialist qualification.
RUN PERIOD:	6 months

Section 1: Registrar's Responsibilities

<i>Area</i>	<i>Responsibilities</i>
Clinical Duties	<p><u>Responsibilities:</u></p> <ul style="list-style-type: none"> • Reviewing in-patient cardiology referrals prior to involving the Consultant Cardiologist, 3 referrals sessions • Available for any urgent referrals or cardiology emergencies • Arranging in-patient cardiac catheterisation list • Arranging pacemaker implantation list • Presenting Middlemore patients at the weekly cardiosurgical conference at Auckland City Hospital and arranging surgery as appropriate • Presenting at the weekly journal club and cardiology registrar teaching sessions <p><u>Clinics:</u></p> <ul style="list-style-type: none"> • Two outpatient clinics per week (4 new patients and 6 follow-up patients) • Tilt table testing (average 2 per week) • GP ECG interpretation • Outpatient echocardiography (optional 1 session per week, vs pacemaker follow up) • Pacemaker implantation 1 session per week (1/2 day) • Cardiac Electrophysiology 1 session per week (1/2 day)

Area	Responsibilities
	<p><u>Cardiac catheterisation:</u></p> <ul style="list-style-type: none"> • One sessions (1/2 day) per week, responsibilities include - • Pre-assessment and consent of in-patients • Troubleshooting problems arising as patients transfer from Middlemore to the catheterisation laboratory • Performing cardiac catheterisation under supervision, including sheath removal/groin management • Arranging surgery and including cardiosurgical summaries of "E" priority patients for inpatient surgery • Arranging appropriate follow-up and management of in-patient catheters prior to and following transfer back to Middlemore • The Cardiology Registrar will maintain a high standard of communication with patients, patients' families and staff. The Registrar will confer at all times with other clinical team members regarding discharge planning and progress of patients. • Weekend duty includes post-acute rounds and review of patients under the care of CCU and SDU. The 1600-2230 component of a long day involves admitting patients for General Medicine and holding the Urgent Medical Review pager. • When on-call on week nights the registrar will be responsible for admitting patients under the direction of the general medicine SMO in ED. Their priority will be admitting patients with cardiology problems likely to go to Ward 2 Cardiology or CCU, but will also admit some patients under general medicine where that is more appropriate. They will also be available to provide advice and support regarding cardiology problems to other RMOs. <p>Clinical skills, judgement and knowledge are expected to improve during the attachment.</p> <p>CMDHB Clinical Board policies are to be followed at all times.</p>
Administration	<ul style="list-style-type: none"> • Legible notes will be written in patient charts on assessment / admission, and whenever management changes are made. All documentation should comply with CMDHB Clinical Board documentation policy. • All instructions (including drugs, IV fluids and instructions for nursing) will be accurately and legibly recorded and legibly signed. • The Cardiology Registrar will complete a cardiosurgical summary on all patients on whom they have undertaken cardiac catheterisation and also as requested by the consultants. • A letter will be dictated to the patient's GP after each outpatient visit. • The results of all investigations will be sighted and signed. The responsibility for results relating to inpatients may be shared with the team House Officer. The Cardiology Registrar will refer results to the Consultant where there is uncertainty about the significance of the result. • The Cardiology Registrar is responsible for the completion of death certificates for patients who have been under their care, although this may be delegated to a House Officer. • The Cardiology Registrar will attend a weekly department meeting of medical staff and cardiology technical staff. • Obtain informed consent for procedures within the framework of the Medical Council guidelines which state:

Area	Responsibilities
	<p>1) "The practitioner who is providing treatment is responsible for obtaining informed consent beforehand for their patient. The Medical Council believes that the responsibility for obtaining consent always lies with the consultant – as the one performing the procedure, they must ensure the necessary information is communicated and discussed."</p> <p>2) "Council believes that obtaining informed consent is a skill best learned by the house surgeon observing consultants and experienced registrars in the clinical setting. Probationers should not take informed consent where they do not feel competent to do so."</p> <ul style="list-style-type: none"> • If absent due to unexpected circumstances (e.g. health, other), contact the RMO Support Unit or, if after hours the Duty Manager directly as well as the Consultant to which the registrar is clinically responsible in the absent duty • As an RMO working at CMDHB you will be provided with a Clinical Portal login and CMDHB email account which will be used for all work related communication. It is your responsibility to ensure you check this regularly
