

RUN DESCRIPTION

POSITION:	House Officer – Public Health Medicine
DEPARTMENT:	Planning, Funding and Outcomes Joint team across Waitemata DHB and Auckland DHB, based at Waitemata DHB
PLACE OF WORK:	Waitemata DHB Planning, Funding and Outcomes Team offices Level 1, 15 Shea Tce, Takapuna
RESPONSIBLE TO:	Clinical Director, Health Gain Team Workplace Supervisor (Training) and Workplace Trainers (Projects)
FUNCTIONAL RELATIONSHIPS:	The House Officer will be working as part of the Planning, Funding and Outcomes Team and is expected to maintain functional relationships with: <ul style="list-style-type: none"> • Director Health Outcomes and Director Funding • Clinical Director, Health Gain Team • Other Health Gain Team members • Health Intelligence Team analysts • Members of Funding and Development teams • Other hospital clinicians and staff as applicable
EMPLOYMENT RELATIONSHIPS:	Employed by Waitemata DHB
PRIMARY OBJECTIVE:	Assisting with evaluation activities/Service review, Updating the Health Needs Assessments, Literature review, and Developing analysis to answer specific Health questions.
RUN RECOGNITION:	The run has been accredited by MCNZ as a community based attachment.
RUN PERIOD:	3 months

Background:

The Health Gain Team provides public health leadership and technical expertise in key projects and work programmes within the DHB and in particular to the Planning, Funding and Outcomes (PFO) Unit, to ensure they take a population health approach in service planning and funding. This involves a combination of population, equity and evidence-based approaches. The Planning, Funding and Outcomes (PFO) Unit is responsible for administering the annual budget allocated to Waitemata and Auckland DHBs by the Ministry of Health. The DHB funds a wide range of providers for services, projects and programmes, which contributes to the health and wellbeing of our districts' populations. These include:

- Primary Health Organisations (PHOs)
- Non-governmental Organisations (NGOs) e.g. The National Heart Foundation
- Secondary services provided by our own hospitals and community facilities
- Regional services provided for the greater Auckland population e.g. child disability and school dental services provided by Waitemata DHB to the Auckland Region DHBs

- Tertiary specialist services provided by other DHBs e.g. radiotherapy services provided by Auckland DHB to Waitemata DHB.

This clinical attachment is designed to support House Officers to gain insights into how Funding and Planning occurs at a DHB level from a population health perspective. It provides an opportunity to experience how the Health Gain Team contributes evidence and expertise into the strategic decision making for the DHB including equity considerations. This may assist the House Officer in making an informed decision about a future career in Public Health, particularly in Public Health Physician Training. If the House Officer chooses to continue in secondary or primary care this foundation will give them a much clearer understanding of broader health system delivery

This attachment will provide hands on experience and one-to-one teaching from practitioners vocationally registered in the scope of Public Health Medicine in a supportive and stimulating environment.

The training will provide a good foundation toward vocational pathways of Public Health Medicine, General Practice or General Medicine. The key to this is to expose the House Officer to a range of environments where new skills can be learnt to gain the basic competencies towards these vocations.

The House Officer will be immersed in the cultural diversity within the region and gain a greater understanding of practice at the interface between hospital and community settings and the issues facing physicians working with patients of high complexity. The attachment will also provide an opportunity for consolidation of clinical, research and project skills that will serve the House Officer in a future general scope of practice by providing a wide range of practical experiences.

Section 1: Clinical Attachment

Objectives of the training programme

KEY TASKS	EXPECTED OUTCOMES
Assist with evaluation activities or Service reviews	Develop knowledge of processes including planning the evaluation or Service Review, defining the purpose, identifying the boundaries, negotiating with key stakeholders,

Prevents Harm	<ul style="list-style-type: none"> Follows policies and guidelines designed to prevent harm. Acts to ensure the safety of themselves and others.

Clinical Supervision

An experienced Vocationally Registered Senior Medical Officer will be allocated to each House Officer as their primary supervisor and will provide close clinical supervision, support and mentoring. The primary supervisor or an alternate clinical supervisor will be available on site where the House Officer is required to work or be placed at all times.

At PGY 2 level House Officers will require a high degree of supervision and support. Clinical supervision will be provided by the supervisor. This is to ensure that the House Officer is exposed to a training environment that enables successful completion of their desirable skills list, throughout the run. In this model support/feedback and mentoring is offered.

The supervisors will accept responsibility for direct supervision on a day-to-day basis for the learning needs and the provision of clinical care during the attachment.

The House Officer will work directly with a clinical supervisor. Clinical supervisors will have responsibility for the House Officer's patients and will:

- create and maintain a suitable individual learning environment for the House Officer
- act as a mentor for the House Officer
- make sure that a wide range of opportunities for clinical skill development is available to the House Officer
- ensure that the House Officer has a level of supervision appropriate to his/her skill level
- provide guidance to the House Officer on the development of clinical strategies, knowledge, and skills objectives
- provide guidance and advice to House Officers regarding the cultural appropriateness of care provided
- Usually not have more than one House Officer House Officer under their supervision
- provide a report to the DHB which employs the House Officer via the NRA at the end of the placement
- arrange for alternative supervisor to cover any periods of absence

Expected Outcomes

- House Officers will gain meaningful experience of integrated practice, and be more aware of the public health/hospital/community interface, and interface between health professionals in the Waitemata DHB.
- House Officers will provide a report of their experience to their employing hospital on completion of the placement. Copies of this report will also go to Waitemata DHB and the Northern Regional Alliance.
- It is anticipated these positions will be recognised as rewarding and that public health and general medicine can be viable career options.
